

# VRK TOKEN

# What is VRK?

It is a "**Utility token**", a unit of value that VRAKKA creates for a utility within its ecosystem.

VRK is a utility token within the Vrakka ecosystem, multichain within ( Ethereum, BNB and polygon), the token blocks use time division multiple access technology, this means that no two blocks are ever issued at the same time in a decentralized manner, reviewed by a validator with a sha-256 algorithm used as a clock giving time stamps.

# Features

01

Supply of: 500,000,000

02

Token with limited creation
